RODRÍGUEZ SIRET FRANK

JAVA DEVELOPER · FULL STACK ENGINEER

Barcelona, Spain · frank.siret@gmail.com · linkedin.com/in/frank-siret · github.com/FrankSiret

PROFILE

Highly motivated software engineer with 5+ years of professional experience and a strong background in **competitive programming** and algorithmics. Proficient in **Java / Spring Boot**, **React / TypeScript**, and **C++**. Deep understanding of OOP, Design Patterns, and system architecture. Contributor to open-source academic platforms.

SKILLS

Java	10+ yrs ★5
Spring Boot	6 yrs ★5
React	7 yrs ★5
TypeScript	7 yrs ★5
Tailwind CSS	3 yrs ★4
Database Design	10+ yrs ★5
Design Patterns	7 yrs ★4
CI / CD	4 yrs ★4
Node.js	7 yrs ★4

EDUCATION

Master's in Computer Science
Harbour.Space University — Spain
May 2024 – Oct 2024

Graduate-level coursework covering advanced CS disciplines.

Bachelor's in Computer Science
Universidad de Oriente — Cuba
Sep 2014 – Jun 2019

Gold Title & Scientific Merit Award. Top graduate 2019 class. Thesis on Information Retrieval.

ICPC HIGHLIGHTS

- ★ 1st place — 6th ICPC Challenger (2018)
- ★ 1st place — 5th ICPC Challenger (2017)
- 14th — Caribbean Finals 2018
- 13th — Caribbean Finals 2017

Graduated Courses
Universidad de Oriente — Cuba
Jan 2020 – Jun 2021

Mathematical foundations, programming languages, computer networks, digital image processing.

Music · Coffee · Travel · Reading · Puzzle Solver

EXPERIENCE

Software Engineer
Mar 2021 – Present
Peoplewalking

- Leading the team for client **Zertiban**, coordinating daily stand-ups and delivering tasks collaboratively.
- Led technical design and development of multiple features for **Xpertopolis**, delivering high-quality products on time.
- Key role in designing a centralized application for **ANCERT** (Agency of Certification, Spain), streamlining operations.
- Developed a user-friendly app for **Navarra Clinic University** exceeding client expectations.
- Automated build, test, and deploy pipelines following **CI/CD** guidelines using **Jenkins**.
- Facilitated **React JS** boot camps for junior developers; developed reusable component libraries.

Java · Spring Boot · Docker · React JS · Angular · TypeScript · Node · PostgreSQL · Jenkins · Jira

Java Developer
Aug 2023 – Nov 2023
Cognicore

- Developed microservices for the **Cognicore** application at startup Human Data Manager.

Java · Spring Boot · PostgreSQL · Docker

Python Developer
Aug 2022 – Present
Matcom Grader

- Enhanced platform design and functionalities of the Matcom Online Grader (MOG) platform used in the Caribbean region.
- Migrated problem writing to Markdown; created a custom logging module.

Python · Django · React JS · PostgreSQL

ICPC Executive Director
Nov 2021 – Mar 2022
Universidad de Oriente

- Oversaw preparation and execution of ICPC contests; led teams and coordinated people.

Computer Science Professor
Sep 2019 – Mar 2022
Universidad de Oriente

- Taught **Logic Math** and **Data Structures & Algorithms**.
- Received the **CITMA Award for Young Researchers** in 2019.

Freelance Full Stack Developer
Oct 2020 – Mar 2021
Freelance

- Developed responsive websites for small businesses using agile (**XP**) methodology.

React JS · Bootstrap 4 · MySQL

C++ Developer
Sep 2017 – Jun 2021
Centro de Biofísica Médica

- Contributed to **Imagis**, a medical imaging software; developed 10+ features across design, visualization, and image segmentation.

C++ · Java · VTK · Qt Framework · ITK
